About us

RAK INDIA GRANITES PVT LTD has been in business since 2005. We have our own manufacturing unit at Vandavasi, Tiruvannamalai District & Krishnagiri. We have been supplying our products to various countries like UK, USA, Australia, South Korea. We understand our client's requirement & ensure high quality products delivered at right time & at attractive prices. Our factory has the latest stone processing technologies & skilled workforce thus we are capable of handling typical Jobs.

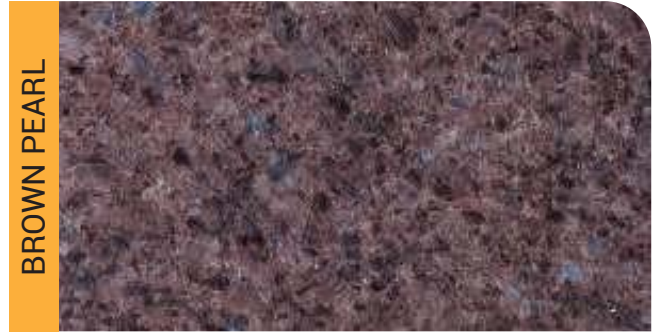

Machinery

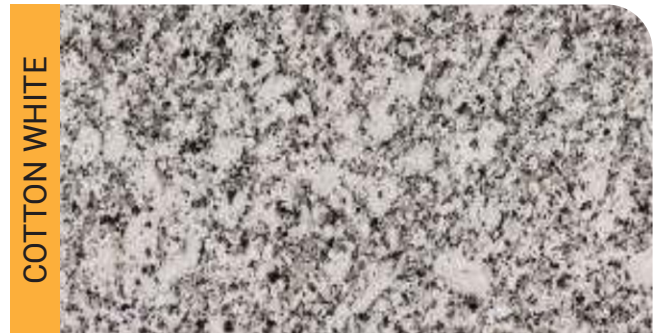

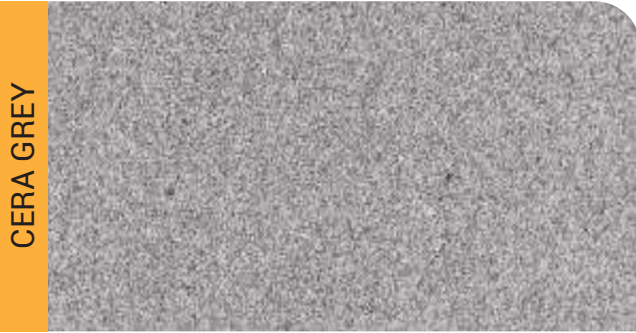

We have some of the state-of-the-art local and imported machines from Italy, France, Germany, Japan and other countries that handle our production with ease. Lot of artists of India and international repute rely on this robotic machine to express their creativity in stone and we have executed many amazing artistic work that was displayed in famous museums and art galleries around the world.

Consumables

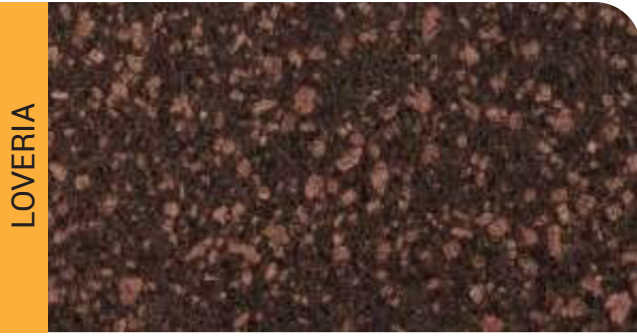

To give a glossy polish look on stones one needs have high quality abrasives and consumables. With in-house R&D it produces some of the finest abrasives for its own production which is bringing down the cost of production as well.

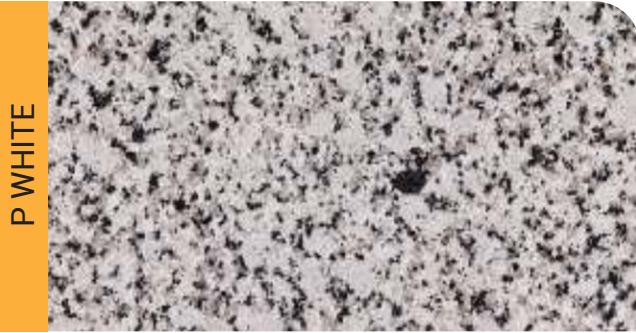

We offer Monument, Tombstone, Headstones, Gravestones, and Monuments. These stones can be used to carve out magnificent sculptures, establishments, and others. We offer these stones in different colors, sizes, and texture.
